

Congratulations, you have purchased the Incredible Wonder Fork, a high quality muck-ing tool that will give you years of dependable use. The Wonder Fork is designed to make the chore of picking manure from horse bedding easier, quicker, and cheaper. The basket around the base of the fork keeps manure on the fork while helping to let expensive bedding sift out. Simply scoop up manure and gently tap the tines a couple times against a hard surface and watch the clean bedding fall through. Also great for spreading fresh bedding. **NOTE:** The Wonder Fork is for picking up manure only, it is not a shovel or a pry bar. Do not use for rocks, hard soil, hard frozen manure, or similar hard or heavy materials.

SAVES TIME • SAVES BEDDING • ONE YEAR GUARANTEE

INCREDIBLE WONDER FORK

makes it easy to handle

1 YEAR GUARANTEE
see details on back

The Incredible Wonder Fork is the biggest improvement in the history of the manure fork. The built-in basket contains the manure – just tap the fork a couple of times and the shavings fall through the tines. The savings on shavings alone will make the Incredible Wonder Fork pay for itself. And, from barnyard to backyard, there are hundreds of other uses. There's nothing else like it!

Scoop up manure, tilt fork back and tap to make shavings fall through the tines. All you throw away is the manure!

U.S. Patent No. 5,417,044

Sturdy, coated hardwood handle

Built-in basket lets you shake bedding out without dropping the manure

Reinforced tines molded of tough polycarbonate made for real stable stamina

Rust proof, durable stainless steel hardware
